

Karen Siciliano is the co-owner and Vice President of Siciliano Landscape, a company founded over 70 years ago by Karen's grandfather. She joined the family business five years ago, after working for 18 years on male-dominated Wall Street as a bond broker. Now she applies her business acumen and experience in predominantly male industries to running a landscaping company, and one of the two river area's most successful at that.

Siciliano Landscape provides services for residential and commercial customers, including landscape design, installation, and maintenance. The company prides itself on quality and customer relationships, treating each property as if it were their own. "We have history, roots in the community, a reputation for excellence, a loyal clientele, well-trained experienced staff, and a social conscience," says Siciliano.
